

Terrazza Greeny PRO[®] KIT

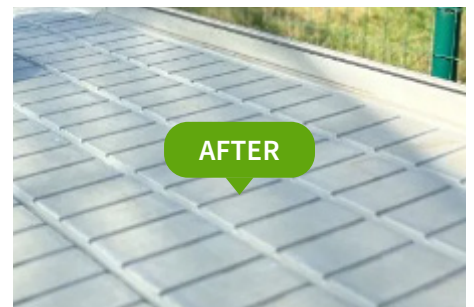

Designed to clean nursery tables with ease.

- Suitable for use on nursery tables, but also on windows, aisles, passages, and more
- No chemicals
- No high pressure water
- No heat
- Advanced rotation speed: The brush spins at a moderate speed to prevent mud or debris from flying around
- Brush easily reaches between joints, cracks, and other hard-to-reach areas, effectively removing dirt
- Saves a significant amount of time
- Incredibly user-friendly

The Greeny PRO[®] brush is built to clean, but not damage the surface, borders or sprinklers. The design and rotational speed of the brush is key to minimal wear and tear.

- No projection of debris or mud
- Avoids spreading seedlings
- No damage to the surface, borders or sprinklers
- Relatively little dust - comfortable to work with inside or outside
- One person operation
- Cleans thoroughly – especially with the use of water
- Makes the surface nice and smooth - takes away slipperiness
- Cleaning made easy!
- Reduces labour cost
